Features

More Advanced Portable Jump Starter

With new invented "The 3rd Generation" battery system, it has much more power to jump start a dead battery of petrol or diesel engine like a car, motorcycle, boat, jet ski, ATV and lawn mower just in seconds. It can jump start an automobile battery multiple times on a single charge. Especially designed for the latest vehicles with Turbo, Hybrid and Start-Stop System.

USB-C Input Charging

USB Type-C is termed "universal" as it is reversible, so you'll no longer have to flip the connector around for a few times looking for the correct orientation. It will surely be in eliminating the frustration.

USB-A Output Charging

With this 29600mWh high capacity battery, you can charge portable electronic devices such as Tablets, Smartphones, Game Consoles, Earbuds or other 5V USB devices multiple times.

12V DC Output Port

With the 12V cigarette lighter adapter provided, you can power any 12V electric devices like a Vacuum cleaner, Air compressor, Tyre inflator, Waxer and Polisher etc.

LED Light

LED flashlight with different lighting patterns.
